

Village of Elmwood

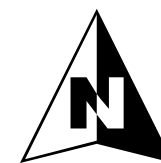

Development Limitations

-  Village of Elmwood
-  Slopes > 12%
-  Kraemer Limestone Quarry
-  Shoreland Buffer (300')
-  Frequent Flooding Areas
-  Wetlands

NOTE:
The development limitations map includes the following characteristics from the NRCS Pierce County soil data: quarries; slopes greater than 12%; frequent flooding; shorelands; and wetlands.

The data used to create this map are derived from generalized statewide information at small scales and cannot be used for site-specific purposes or analysis. It is meant solely to be used as a land planning tool.
